

12 March 2020

Dear BCNH 2020 Student

BANT made yesterday an announcement which outlined that students embarking on new courses from the 1st of September 2020 can expect to become full members of BANT if their course will lead to the award of a Bachelor's honours degree or higher, combined with NTEC accredited qualifications for Nutritional Therapy practice.

However, BANT recognises that you are enrolling into a NTEC accredited level 6 Diploma course in September 2020 while BCNH are still in a transition period working toward Bachelor's honours degree or higher course offering.

During this transition period BANT will support student membership applications that will on graduation lead to Full BANT Membership from BCNH students that start their level 6 NTEC accredited Diploma course in September 2020.

We look forward to supporting your studies with resources available from BANT and the professional support and standing that is awarded by your training and BANT membership.

Very best wishes for your future success,

Miguel Toribio-Mateas
BANT Chair and Director
