

Online Taster Science Course (21 - 22)

This taster course / introduction to sciences is suitable for those candidates who are contemplating studying nutrition at a BSc level. The course consists of 2 short units:

1. **Cytology** - including:

- Cell structure and components
- Movement of substances into and out of cells
- DNA & RNA structure, function & transcription

2. **Introduction to chemistry** – including:

- The Periodic Table
- Atoms
- Covalent bonding
- Balancing Equations

Your learning is facilitated by **comprehensive lecture notes, video recordings** and **short practice quizzes**, which you can attempt as often as you like.

The course will be available online for 6 months from the date of enrolment.

Course fee: **£250 + VAT** (payable by bank transfer). **Please note that the fee is non-refundable.**

Candidates who have successfully completed all quizzes will receive a **BCNH Certificate of Completion.**
